Designer: Romina Diaz-Rivero

### Notes on Initial Mockups (11/8)

- Make header/title bigger font size
- Color palette is very strong—stick to it!!
- Make navigation more clear for which page the user is currently on—for example a darker block behind the current page they're on
- Will attempt a photo carousel for the snakes
  - o If not, a photo grid works just fine
- Will test out a serif font
- Will come up with a title and maybe logo
